Rheumatology referral

Your GP has suggested asking for a referral to:

Guy's and St Thomas' NHS Foundation Trust

Waiting so far	**About 6 weeks** Half of the people on this list have waited this long or less (NHS data, Aug 2026). This is not a booking date.
Care Quality Commission rating	**Good** (rated in 2019) CQC ratings in this data are 3 to 8 years old. This one covers the whole trust.
Distance	**About 1 km** From your area to the trust's main office. Your appointment may be at another of its hospitals.

Why this option

Half of the people on this trust's rheumatology waiting list have waited 5.7 weeks or less so far, and 96 in 100 have waited under 18 weeks. Your GP has weighed this against the trust's rating and how far you would need to travel.

You may be able to choose your provider

Patients may be able to choose their provider for a first outpatient appointment with an eligible consultant-led service. Find out more at **nhs.uk/using-the-nhs/about-the-nhs/your-choices-in-the-nhs**

This summary is not medical advice. Talk to your GP if anything changes. It is not for urgent or suspected cancer referrals, which follow faster routes.
